Career Objective

Aspiring DevOps Engineer with hands-on experience through real-time projects and internship exposure. Passionate about automating deployment processes, managing cloud infrastructure, and working with containerized applications. Seeking an entry-level opportunity to apply my DevOps and cloud knowledge in a challenging, growth-oriented environment.

Teducational Qualification

Institution	Year Percentage/CGPA
St. Peter's Engineering College, Hyderabad	2024 6.5 CGPA
St. Mary's Group of Institutions	2020 55%
Shakuntala High School, Hyderabad	2015 77%
	St. Peter's Engineering College, Hyderabad St. Mary's Group of Institutions Shakuntala High School,

****** Technical Skills

Operating System: Linux (Ubuntu, CentOS)

Version Control: Git, GitHub

Build Tools: Maven

• CI/CD: Jenkins, ArgoCD, GitOps

Code Quality: SonarQube

Containerization: Docker

Orchestration: Kubernetes

• Cloud Platform: AWS (EC2, S3, IAM, CloudFormation)

Infrastructure as Code: Terraform

Monitoring Tools: Prometheus, Grafana

Scripting: Basic Shell scripting

Internship

DevOps Intern

Magneq Software Solutions, Hyderabad

Mar 2024 – Present

- Built CI/CD pipelines using Jenkins for Java-based applications.
- Containerized projects using Docker and deployed them on Kubernetes clusters.
- Automated infrastructure provisioning using Terraform on AWS.
- Integrated SonarQube for code quality checks.
- Managed source code with GitHub.
- Deployed microservices and monitored them using Prometheus & Grafana.
- Used ArgoCD and GitOps to automate Kubernetes deployments.

Projects

1. CI/CD Pipeline for Java App

- Tools: Jenkins, Maven, SonarQube, GitHub
- Description: Automated build and deployment pipeline using Jenkins with quality checks via SonarQube.

2. AWS Infrastructure Automation

- Tools: Terraform, AWS EC2, VPC, S3
- Description: Created EC2 instances and other AWS resources using Terraform scripts.

3. Kubernetes Deployment with GitOps

- Tools: Docker, Kubernetes, ArgoCD
- Description: Deployed and managed applications using ArgoCD with Git-based automation.

© Strengths

- Quick learner and proactive
- Strong fundamentals in DevOps lifecycle
- Good communication and problem-solving skills

Hobbies & Interests

- Playing cricket and badminton
- Exploring DevOps tools and cloud services

Declaration

I hereby declare that the above information is true to the best of my knowledge and belief.
